A REAL SOLUTION TO A SERIOUS PROBLEM

The most effective method to respond to the new requirements here in Missouri regarding social distancing, respect for violators, discovery and bail, is diversion. We clearly understand that the need are often very different than normal “V&T” requirements, but even so, we are convinced that we can greatly help.

We believe that while your office is already doing a very fine job with the cases handled, this provides an additional and effective means to assist you in further automating efforts and providing additional respectful service to violators and also, to the general public. When addressing behavior modification, we know that such systems must however, minimize court time, maintain revenues and most importantly, help ensure the safety of everyone. A real solution must:

★ Be Respectful, ★ Efficient, ★ Cost-Effective and, ★ Meet All Legal Requirements

We seek to help you further:

AUTOMATE AND MONITOR THE PROCESS ONCE VIOLATORS ARE IN THE SYSTEM

AVOID DISCOVERY AND SPEEDY TRIAL CONCERNS FOR OFFENSES: We will ensure that Participants agree that the time it takes to complete the program is chargeable to defense for purpose of speedy trial and, they further waive any right to discovery while they complete the Program.

CONTROL – You retain complete control at all times. The system reflects your exact requirements.

KEEP REVENUES – All funds collected by us go always and only to your authorized account.

HAVE LESS EFFORT – This will result in a dramatic reduction of staff time and effort allowing more focus on issues and charges that are more serious.

SUPPORT COMPLIANCE – We provide monitoring and a greater ability to deal with new and future requirements.

CONTINUE AND SUPPORT YOUR EFFORTS TO REDUCE COURT TIME AND RESOURCES – Taxpayers appreciate efficiency/less financial burdens.

EASY AND QUICK TO IMPLEMENT – Decisions today can result in activation almost immediately.

LINKS TO YOUR NET SITE – We provide sites for violators but also for you and, link to your existing site.

CAN HANDLE REPORT-IN REQUIREMENTS – We can use voice print, monitor call-ins and do much more

ACCOMODATES EXISTING REPORTING REQUIREMENTS – Captures and retains every image and report

entry in a datavault under your exclusive control for easy retrieval at any time...using any field

REVENUE DISTRIBUTION - We record exact results for each agency, office, jurisdiction and counselling and support organization and prepare funds for distribution

SAVES MONEY – We know that we can provide these services for far less than your internal costs

WE COLLECT FROM THE VIOLATOR/PARTICIPANT AND PROVIDE HELP DESK SUPPORT, “ALL-IN” INEXPENSIVE PRICING, PAYMENT PORTALS, COURSE VERIFICATION AND MUCH ELSE.

We are continuing to develop this program with a focus on providing features for St. Charles County and similar Clients/potential Clients. Recent upgrades soon to be activated include:

- Archived Unfulfilled/Unsatisfied Registrations – for those that were never completed; Prosecutor has sole access to this.
- Revenue Sharing Report – Detailed report available using any number of triggers to see all historical revenue disbursed by day/month/year/court, etc.
- Validation requirements – This to ensure that each entry of notice or citation number, phone number, etc., are all entirely correct and, to eliminate unnecessary multiple entries by violator.
- Eligibility and Status Notifications - This allows the user’s choices to expand from 20 and then, 5 business days’ automated advance notice to the violator that the period to comply is ending to any schedule at all. The user can set any schedule for the violator but also now for notifications to the court, the prosecutor’s own office, etc.

We can work with you to automate notifications in many ways. We provide a daily report of all violators in the system and their exact status. A simple automated feed using, (to ensure no violation of firewalls is possible), a simple SFTP file into a DMZ with no privacy-sensitive data then enables us to provide notification of who has applied and what their status is without privacy details. Only when they are actually in the system and we are assisting them can we know, (with their recorded permission to know....) what and how to assist further.

We respectfully request a list of charges typically and also, occasionally handled by your office. We will then provide a grid loaded with suggested fees for you to approve by clicking-on them or disprove and/or change the amount or other penalty details.

We have created massive spreadsheets of charges and decision points but are clearly making something that should be very simple, far more complicated in an effort to assist.

We know that there are case types that you deal with frequently including perhaps those below:

As we work with this, it is increasingly clear that the best approach is to provide a secure method to port files and match those registrants with those that you wish monitored to ensure they do so and, report any that failed in that or other requirements. We respectfully suggest that you simply start sending files over and we will fully accommodate your needs as we constantly work to improve the system and your user experience. That said.... If you wish to simply highlight those charges you wish

for us to handle, we have provided this to enable you to do so. We will then provide you with a decision menu for the penalty levels based on research into what is done now.

Please either send a list of those you deal with now or highlight the following as well and we will provide the finished “Strawman” for your use.

QUESTION: What Qualifies for Diversion Support from Diversion Management?

ANSWER: Those You Approve... That Is Entirely Your Decision. We ask that you send us what you wish and we will do all possible to handle those files and document all effort and maintain the pricing level discussed earlier, (10%) which we will typically collect from the violator.

When creating a diversion program, legislators often identified the main types of offenses that make offenders eligible for that but, in most cases, left much discretion to the courts and prosecutors, provided offenses are typically minor and non-violent. Such offenses as petty theft, personal possession of certain drugs (not possession for sale), and in some states, driving while under the influence of alcohol or drugs. Some states include assaults that involved very minor or no injuries, and some include domestic violence and child abuse or neglect. In many states, ordinances are also handled as well using this method.

The most common use may involve “V&T” ... (Vehicle and Traffic) – which you are not handling but just for the record, those **may** include:

1. Speeding
2. Cellphone and other portable electronic devices
3. Disobey a traffic control device
4. Reckless driving
5. Aggravated Unlicensed Operation, (AUO)

15. Red light or other traffic signal
16. Stop sign
17. Spillback – blocking the box, (obstructing traffic at an intersection)
18. One-Way/Wrong Way
19. Tailgating – Following too closely

But many other charges are often handled in this manner and as noted elsewhere, increasingly municipal ordinances such as:

1. Violating local speed limits
2. Operating a vehicle while Intoxicated (OWI/DUI);
3. Constructing illegal structures on one's property;
4. Creating or allowing excessive noise from one's domestic animals;
5. Failure to clean up after one's domestic animals;
6. Polluting public water supplies;
7. Consuming alcohol where prohibited;
